MONTE CARLO YACHTS UNVEILS THE NEW MCY 76 SKYLounge

MONFALCONE, 10 SEPTEMBER 2020. As officially announced, just a few months after the presentation of the MCY 70 *Skylounge* at the Miami Yacht Show 2020, Monte Carlo Yachts launched the second model of the Collection: the new MCY 76 *Skylounge*. The latest MCY' creation triggers authentic elegance and timeless feelings, which can now be experienced on another level.

The MCY *Skylounge* Collection represents a totally new and different way of experiencing life onboard. Conceived for those who love to cruise in comfort all year round, it meets different needs featuring a wide additional volume offered by the enclosed Flybridge, without sacrificing the multiple exterior areas. Such concept has been designed and manufactured by an Italian shipyard for the first time.

The new MCY 76 *Skylounge* perfectly embodies the shipyard's constant research for balance between functionality and aesthetics. Once again, the unmistakable touch of Nuvolari Lenard is clearly visible in the sleek exterior lines designed to assure a close connection with the sea. The wide windows and the enlarged iconic portholes aimed at guaranteeing an increased exposure to natural light throughout the yacht also bear the signature of the International design studio.

“Volumes, light and harmony are the hallmark of the MCY 76 Skylounge”, say Carlo Nuvolari and Dan Lenard. “We worked on designing a boat able to offer a new cruising experience with extreme levels of comfort and safety on board, to be enjoyed all year round. We are proud to say that the new MCY’ model perfectly matches these ambitious goals, representing the right place for those looking to escape for unique and exclusive moments.”

Having one of its major strengths in the multiple exterior areas, the new MCY’ creation displays a wide and versatile bow lounge area with sun pads and dining tables, where to relax and enjoy time with friends and family in complete safety and privacy. Moreover, the spacious aft cockpit offers a comfortable area with an al fresco dining location in close connection to the main saloon. The mirrored fashion plates increase the level of protection from environmental factors, beside ensuring greater privacy. On the upper deck, the large aft terrace constitutes the true added value offering a customizable external projection of the enclosed Flybridge, which on the first unit features a lounge area located close to the open-air galley.

As the first model of the *Skylounge* Collection, the new MCY 76 *Skylounge* boasts a spacious enclosed Flybridge that emphasizes the level of well-being on board to be enjoyed in every season. This area incorporates the sole helm station, fully-equipped with top-edge technological elements. Such added volume becomes a second saloon with a large, customizable entertainment area perfect for relaxing moments, that can also be turned into the owner's private studio with an inspiring 360-degree view over the horizon. The enclosed Flybridge structure is made in Carbon Fibre, a lightweight material characterized by high strength and exceptional durability. Another gem of this area are the large and openable Skylights, that allow owners and guests to gaze up at the sky while cruising.

The main deck presents a flexible layout featuring a combination of comfortable sofas, a fully equipped galley and a large dining location with plenty of storage space available, that can be rearranged according to the owner's preferences. Common to the second generation of MCY 76, the main saloon of MCY 76 Skylounge is also characterised by an enhanced exposure to natural light. An elegant internal staircase in steel and wood leads to the enclosed Flybridge, without interrupting the space around nor impeding the view.

"The levels of comfort and privacy on board the new MCY 76 Skylounge are maximized, thanks to the versatile layouts and the different possible uses of both the main deck and the upper deck saloon," says Sergio Loiacono, MCY' Sales and Marketing Director. "With the second model of the Collection we are continuing our path of innovation, introducing a new concept of onboard experience, able to match the desires of freedom and well-being of owners worldwide."

On the lower deck, the new MCY 76 *Sky lounge* offers comfortable accommodation for up to eight guests: a full-beam owner cabin, a spacious VIP cabin and two comfortable guest cabins, each one with its dedicated ensuite bathroom. Loyal to the MCY Collection, the owner cabin of the new MCY' model features the iconic Monte Carlo Yachts' portholes. In this case, the wider elements offer increased brightness and a better view over the sea. The spacious full-headroom crew quarters located aft are also fully customizable, with the option of having up to two crew cabins or a combination of one spacious cabin with a galley and dinette in lieu of a second cabin.

The overall interior decor is composed by bright lacquered panels and warm natural maple wood surfaces, enriched by chromed details, while reflective materials contribute to further enhancing the lightness onboard. The harmonic atmosphere is given by textures and patterns introduced with an accurate choice of fabrics, marbles and glass mosaics present in the bathrooms. The owners can choose among a wide range of high-quality materials in order to decor the yacht according to their needs and desires.

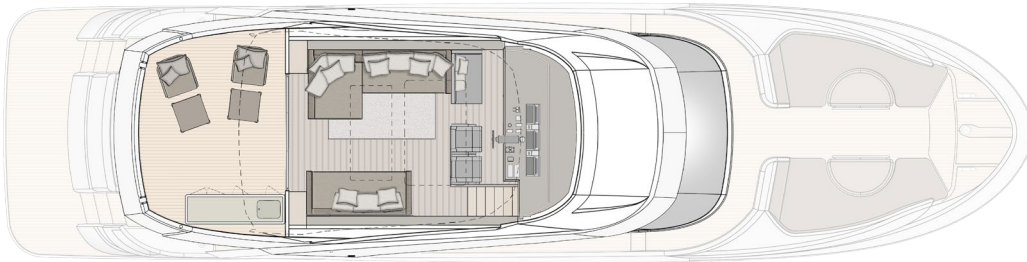

With the new MCY *Sky lounge* Collection, the Italian shipyard continues to deliver unique bespoke solutions to all of its owners that now can enjoy special moments onboard with their family and friends all year round.

Welcome to the MCY 76 *Sky lounge*, a yacht designed to fit your dreams.

MONTE CARLO YACHTS

Genuinely Italian in its management, designers and artisanal skills, Monte Carlo Yachts is the Italian brand in the luxury motor yachts segment supported by the industrial strengths of French Group Beneteau. It has developed and launched a range of award winning models that have been recognized internationally both for their iconic style and their performance. Production takes place in Italy inside the state-of-the-art yard in Monfalcone. Unique in the yachting sector, Monte Carlo Yachts has introduced an exclusive naval architecture and modular construction process inspired by the Lean Manufacturing concepts with which the world leaders in the most advanced industrial sectors pursue aesthetic quality and technical reliability standard of absolute excellence in an efficient production environment.

The full MCY Collection is designed by the world-famous Nuvolari Lenard design studio, which, together with Monte Carlo Yachts, has studied and introduced design features and materials extensively used previously only on mega yachts.

The MCY Collection currently includes the MCY 66, MCY 70, MCY 76, MCY 80, MCY 86, MCY 96 and MCY 105. Furthermore, Monte Carlo Yachts has enriched its range with the new MCY *Skyounge* Collection which includes the MCY 70 *Skyounge* and the recently launched MCY 76 *Skyounge*.
