EXTERIOR DESIGN

FUN AT FIRST SIGHT: GREAT DESIGN CAN BE THAT SIMPLE.

Take a look at the S330, and your holidays have already started. Her dynamic hull promises plenty of thrilling moments, whilst her sleek and lightweight look immediately creates the mood for an easygoing time out.

Fancy full sunlight? Or is it time to cool down in the shade? Thanks to the two opening roof sections, any wish about light on deck will be satisfied. One roof section is located above the cockpit area, one slides over the aft deck. Open both to make your S330 a floating cabriolet.

The sun shines on everyone. For the S330, that's more than a phrase: Extra-large sunbeds can be placed in the bow section. The aft table easily converts into another sunbed. So you can invite four guests to relax outside – at the same time. The pads are even wide enough to put lots of accessories by your side, such as reading material, towels or suntan lotion.

Imagine serving family and friends without having to leave the deck. Six seats on the u-shaped sofa and a double co-pilot seat accommodate up to eight people.

The wet bar and second sink behind the helm seat will assist greatly – not to mention the optional barbecue that can be installed for outdoor cooking.

INTERIOR DESIGN

AT SEA YOU FEEL FREE. WHY SHOULDN'T YOU BELOW DECK?

Two fully-equipped private cabins: highly unusual for this size of boat. The bed size: class-leading. The ceiling height: unmatched. Take the spirit of freedom you get at the ocean down to the inside. The voluminous living space makes it happen.

Once inside, you realise why light switches are rarely used on this boat before sunset. Large hull windows provide abundant natural light – as well as wonderful views to the maritime scenery beyond. Additional skylights fill the rooms with even more daylight from above.

All interiors can be configured with various furniture woods. Choose a friendly oak – as seen on this page – to brighten up both the ambience and the mood of your guests. A darker shade of colour will create a touch of elegance, making the atmosphere calm and classy – as seen on previous page. Cherry wood is also available in both satin or glossy finish.

The S330 features an interior so versatile that it is defined only by your needs. For example, you can order your boat without bulkhead between the saloon and forward cabin, which creates a single living area giving an enhanced feeling of space – and you still have the benefit of a separate aft cabin.

As with all Sealine motor yachts, the cabins invite you also to explore their impeccable appointments. High-quality finish and great attention to detail is evident from bow to stern. Rich materials are found throughout including leather and stainless steel.

GERMAN PRECISION AND PASSION FOR THE SEA. THAT'S WHAT A SEALINE IS MADE OF.

In 2013, the Sealine brand found a worthy new home on the German Baltic coast. At our shipyard in Greifswald we have perfected the interplay between state-of-the-art manufacturing techniques and skilled employees.

The outstanding people in our team perform their work with enormous experience, a deep understanding of the customer and great dedication.

In addition, we are thrilled to cooperate with international partners like Bill Dixon. Working closely with our in-house personnel, the award-winning designer will create a new range of innovative Sealine models.

Above all, we believe that what holds true for the experienced boater, also holds true for us as boat builders: "Never sail against the sea, sail with it". Beyond the individual skill, there is something which genuinely binds all of us at Sealine: A great passion for the sea.
