

NOMAD
 **YACHTS**

The last word in sophistication, the flagship Nomad 95 SUV is a yacht for revelling in, as the enclosed upper skylounge area personifies. This versatile space can be fitted out as an airy upper lounge or as an additional cabin as per the buyer's preference. With either option, the area is fully air-conditioned and allows for truly spectacular heightened views out of huge windows.

Move down below and a huge tender garage offers space for a rib and two jet skis. There is a tender lift option as well, meaning owners can fit a fourth water toy or additional tender on the back. When the garage is open and emptied, it can be turned into a beach club area for relaxing close to the water.

The extensive staff quarters have space for four crew in two bunk rooms, plus an additional skipper's cabin with en-suite bathroom. Indeed, the Nomad 95 SUV offers something exciting and new to private yacht buyers, carving out a niche of its very own.
